HEALTH

MACSEIS Functional Corporate & WorkWear Products are fueled with Technologies originating from Sports, developed to enhance performance and ensure the wellbeing of our end users.

To keep you healthy our line of technologies incorporated in our Products start by your skin. POWERDRY is a fast drying physical quick dry that absorbs your body liquid instantly and starts drying the fabric. While active the POWERDRY function keeps your MACSEIS Shirt in a fast 'drying-mode'. With this technology we try preserve your kidneys by keeping your back from getting sweaty-cold in a long time period.

If you sweat at high level then your MACSEIS 2nd layer should either be our quick dry breathable Sweat or our breathable bonded fleece. Both are tailored to fast rid you of excess heat.

COMFORT

To ensure your Comfort while active in a work environment we not only compose our fabrics at a high level of waterproof - we especially offer a high level in breathability for your excess heat to exit fast. MACSEIS functional fabrics are made for high level of performance - you will feel the difference.

STRETCH

MACSEIS Products are included high level of 4-WayStretch where possible. By incorporating 4-WayStretch in our Products we offer our users an amazing mobility-free-feeling while in motion. Then MACSEIS want your bone-links to be under as little restraint as possible. Our hardwearing work pants and jackets are tailored including 3D Ergonomic articulated body shapes to get the maximum in 4-Way Stretch. Our styles are sporty, light and superbly fitted.

ENVIRONMENT

MAX  HANG TO DRY

MACSEIS Products are all manufactured to OEKOTEX100 and or EU-Standards. While our Products are Functional they are also environmentally friendly washable. Preserve the technologies in your MACSEIS Product wash by max40 and hang to dry.
